<https://www.linkedin.com/in/hasanm025/> • <https://github.com/hasanm95>

Senior Frontend Developer with 7+ years of experience building scalable web applications using React, TypeScript, and modern JavaScript. Proven track record of optimizing performance, creating design systems, and collaborating with cross-functional teams to deliver high-quality solutions.

## WORK EXPERIENCE

**4X Software (Deriv)** 

02/2023 – 10/2025 | Cyberjaya, Malaysia

*Frontend Developer*

- Redesigned deriv.com  client-side architecture leveraging **React**, **TypeScript**, and **Tailwind CSS**, enhancing user experience and performance for a high-traffic financial platform serving 2M+ monthly active users
- Engineered comprehensive design system implementing component-based architecture with React, Tailwind CSS, and **Rollup**, ensuring consistency across 5+ digital products and reducing development time by 40%
- Architected separate build pipelines for ROW and EU regions utilizing Gatsby's SSG capabilities, improving SEO rankings by 35% and page load speeds by 40%
- Optimized application bundle size from 42MB to 5MB (88% reduction) through **tree shaking**, **code splitting**, and **Webpack optimization**, improving load time by 80%
- Mentored 3 junior developers on modern React patterns and conducted code reviews, improving team code quality scores by 50%
- Collaborated with designers, backend developers, and product managers to deliver features on schedule

**HasTech** 

09/2018 – 12/2022 | Dhaka, Bangladesh

*Frontend Developer*

- Crafted 15+ production-ready templates for ThemeForest leveraging React, Next.js, and Gatsby with server-side rendering capabilities, generating \$20K+ in total sales
- Built complex admin dashboards implementing TypeScript, Redux, and real-time data visualizations with **ChartJS** and **ApexCharts**, serving enterprise clients
- Developed Shopify applications using **Remix**, **Node.js**, and **PostgreSQL** that integrated seamlessly with client stores
- Achieved 100% cross-browser compatibility and 95+ Lighthouse scores through responsive design patterns and mobile-first architecture
- Collaborated with UI/UX designers and backend engineers to deliver pixel-perfect implementations, reducing customer support tickets by 35%

**Freelance**

01/2017 – 09/2018

*Web Developer*

- Delivered 20+ custom websites for small and medium businesses using HTML5, CSS3, JavaScript, React, and modern frameworks
- Worked directly with clients to translate business requirements into technical solutions and polished user interfaces

- Implemented responsive layouts and cross-browser compatibility, reducing bounce rates by 25% on average through improved UX and performance optimization

## SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, Remix, Gatsby, HTML5, CSS3

State Management: Redux, Zustand, Context API, React Query

Styling: Tailwind CSS, Styled Components, Sass, CSS Modules, Bootstrap

Testing: Jest, React Testing Library, Vitest, Storybook

Tools & Build: Webpack, Rollup, Vite, Git, Docker, CI/CD

Backend: Node.js, Express, GraphQL, REST APIs, Golang

AI Tooling: Cursor, GitHub Copilot, AI-augmented development

Databases: MongoDB, PostgreSQL

## EDUCATION

**Noakhali Govt. College**

12/2017 – 12/2018

*Master of Science in Mathematics*

CGPA: 3.22

**Noakhali Govt. College**

12/2011 – 12/2015

*Bachelor of Science in Mathematics*

CGPA: 3.24

## CERTIFICATES

**JavaScript (Intermediate)**  – HackerRank

**Node.js (Intermediate) Certificate**  – HackerRank

**Frontend Developer (React) Certificate**  – HackerRank
